## CARBON HOME & SCHOOL

A formal General Meeting of Carbon Home and School Association took place at 8 p. m. in the Auditorium Thurs. June 5th. There was a moderate attendance.

Considerable business was discussed and the following decisions were taken:

1. Membership will be automatically terminated on the 31st December annually if the annual dues are unpaid. Previously there was provision for termination on account of unpaid dues.

2. Funds will be raised to repair the library building. The first effort to be a BAKE SALE on JUNE 21st.

3. The Village is to be asked to take over the Library Building after it has been repaired.

4. The last meeting in June is to be the Annual General Meeting in future.

5. Officers for the next year will be:

Russell Snell.....President

Mrs. M. D. Roberts Vice-Pres.  
Mrs. Ponech.....Secretary  
Mr. Art Buyer.....Treasurer  
Mr. A. Holvik.....Director  
All five are to be directors of the Association.

Auditor.....Mrs. M. Prowse  
6. A brief Library Committee meeting was held. The Rev. J. Roberts volunteered to take over the Treasurership from Mr. J. Appleyard.

A presentation was made to Mrs. Saunders on behalf of four sponsoring organizations for her work at the library.

Votes of thanks were given to Mr. Appleyard and Mrs. Gieck for work done for the organizations in the past year.

The meeting closed with the installation of the new officers followed by a lunch.

Mrs. S. Cadman is visiting at the home of Mr. and Mrs. Charles Cave.

Don't forget the Bake Sale in Legion Hall Sat. June 14th at 7:30 p.m. sponsored by the Anglican W.A.

Mrs. Walter Permann, Mrs. Leo Halstead and Mrs. Edith Holmes motored to Banff to attend the 47th session, Grand Chapter of Alberta, O. E. S.

Hospital patients are Mrs. E. E. Permann, Charles Hedstrom, George Grainger, Mrs. H. Hunt in Drumheller and Doris Bramley and W. A. Braisher in Calgary Hospital.

The Carbon Fish and Game held their first shoot of the season on June 5. The scores were as follows:

I. W. McCracken.....18  
Les Bramley.....17  
Wayne Garrett.....14  
Roland Harsch.....8

The next shoot will be held on June 19, so we'll see you then.

Word was received in Carbon recently of the death in Vancouver of Larry Brown, 27, son of Mr. and Mrs. V. G. Brown of Kimberley, B.C., sister and brother-in-law of Mrs. S. J. Garrett of Carbon. Mr. and Mrs. Garrett left Friday May 30 to spend the weekend in Kimberley with Mr. and Mrs. Brown.

MRS. SYLVIA ISAAC  
Teacher of Grade 1 at Grandview school, Bowden, Mrs. Marguerite Isaac died suddenly in Innisfail hospital Saturday after a brief illness.

Surviving are her husband, George; a son, Robert George; parents, Mr. and Mrs. H. J. Ash, Bowden; three sisters, Mrs. L. A. Snyder, Mrs. R. W.

Currie, both of Calgary, and Mrs. J. R. Geshe, Bowden and a brother, Alfred of Calgary.

## STOCK Quotations

BORN—To Mr. and Mrs. Melvin Brost, a daughter June 2 in Drumheller Hospital.

BORN—To Mr. and Mrs. Wray Wright, a son Monday June 3 in Three Hills Hospital.

BORN—To Mr. and Mrs. D. J. Wilson, a daughter June 5 in Drumheller Hospital.

## BABE RUTH LEAGUE

Following is the remainder of the South Division of the Babe Ruth League Schedule:

June 13—Torrington at Acme  
Swalwell at Three Hills  
Ghost Pine at Carbon

June 20—Ghost Pine at Acme  
Carbon at Swalwell  
Three Hills at Torrington

July 11—Carbon at Acme  
Swalwell at Torrington  
Ghost Pine at Three Hills

July 18—Acme at Torrington  
Three Hills at Swalwell  
Carbon at Ghost Pine

## GAMBLE NEWS

Everyone is wearing a big smile nowadays. About an inch and a half of rain fell over the weekend, making gardens, crops and pastures really pick up.

Lightning shattered a telephone pole, started a grass fire and did considerable damage to the wiring, telephone, and even to the house, at the home of Mr. and Mrs. R. Garrett on May 29th. Two or three hundred feet of wire disappeared completely.

## Ready money for small business

## "You should've seen the one that got away"

A standing joke with fishermen . . . but not so funny in business when a good plan to improve your business or product wriggles off the line for lack of proper financing.

Many a businessman has learned from experience that the difference between "landing" and "losing" the big one is often the financial counsel and backing he receives from his B of M manager in his day-to-day operations.

That's why it will pay you to discuss your plans with your B of M manager.

You will like his helpful, interested approach to your problems. And you can count on this: when you ask for a loan at the B of M, you do not ask a favour . . . if your proposition is sound and reasonable, there's money for you at the Bank of Montreal.

## JUNE BULL SALE TO BE GOVERNMENT "APPROVED"

Arrangements have been completed for the Foothills Cattle Breeders' Association third annual show and sale to be held at the High River Rodeo grounds on June 3rd. The pre-sale show will commence at 10 a.m. with placing to be made by the popular livestock commissioner W. H. T. "Bill" Mead. The sale will commence promptly at 1:00 p.m. with J. Allen Baker and Warren Cooper the auctioneers.

This year's bull sale offering will consist of 60 Herefords, six Angus, four Shorthorn and one Galloway in the age category of 18 to 36 months. Together with this offering of bulls are 27 Hereford females between 18 months and five years of age. These include open and bred females together with cows with calves at foot.

All offerings as in previous years will be approved by three of the district's top cattlemen, Jack Byers, Bert Sheppard and Charlie McKinnon.

All approved bulls will be eligible for purchase assistance under the new provincial cattle improvement policy. This assistance amounts to 10 percent of the purchase price to a maximum of \$50.00 which will be refunded on application to the livestock branch of the Department of Agriculture on the application "B" form. This assistance, intended to improve the quality of Alberta cattle, has been in effect for some years but the set-up was amended effective January 1st of this year. Applicants receiving such assistance prior to that date are again eligible under the revised program. This is the first time such an "ap-

proved" sale has been held locally under this system.

All livestock in the June sale will have passed T.B. and Bangs requirements and the committee anticipates more than the usual interest in and quality of offerings. — The Times, High River, Alta., May 8, 1958.

## CNR operates longest passenger train ever

The longest passenger train ever operated in Canada—26 Canadian National Railways passenger cars and three diesel units—took 964 passengers disembarking from the liner "Saturnia" to various sections across Canada.

The previous record was established on April 15 when a 24-car CNR train handled 761 passengers from the Greek liner "Olympia". Up to that time, the number of cars in passenger trains was limited to 15 units in wintertime and 18 in summertime. The operation of such long trains has been made possible by the use of diesel locomotives.

## Money talks at Hamilton

Canada's biggest spender spent more than \$10,000 while speaking to members of the Hamilton Traffic Club recently.

E. A. Bromley of Montreal, vice-president of purchase and stores for Canadian National Railways, described how his organization spends an average of \$282 millions a year or about \$537 a minute.

"At that rate," he quipped, "I have spent more than \$10,000 while talking to you."

## Senior Citizens Home to be built in Carlyle

Construction will commence at as early a date as possible on the Senior Citizens Home in Carlyle was the decision made at meeting of representatives from interested towns and municipalities at a meeting in the Carlyle Memorial Hall.

The name of Mountain View Lodge will be given to the \$260,000 structure which will contain 20 apartment style and 20 hostel style units.—The Observer, Carlyle, Sask.

### TAX REVENUES

Federal government tax revenues in the first 11 months of the current fiscal year were \$4,551,700,000, of which personal income taxes produced \$1,411,600,000.

### POULTRY, EGGS WANTED

## Family favorite

So delicious, and so easy to make, too! For dependable results when you bake at home use fast-rising Fleischmann's Active Dry Yeast.

## Rye Bread

1. Measure into bowl  $\frac{3}{4}$  cup lukewarm water Stir in 1 tablespoon granulated sugar Sprinkle with contents of 3 envelopes Fleischmann's Active Dry Yeast Let stand 10 minutes, THEN stir well.
2. Stir into yeast mixture  $\frac{1}{2}$  cup warm water 2 tablespoons soft shortening  $\frac{1}{3}$  cup molasses 1 tablespoon salt 2 teaspoons caraway seeds, optional Stir in 2 cups once-sifted rye flour (light or dark) and beat until smooth.

Work in  $2\frac{1}{2}$  cups (about) once-sifted all-purpose flour to make a stiff dough.

3. Turn out on lightly-floured board and knead until smooth and elastic. Place in greased bowl and brush with melted shortening. Cover. Let rise in warm place, free from draft, until doubled in bulk—about  $1\frac{1}{2}$  hours.

4. Punch down dough. Divide dough in half. Shape each half of dough into a loaf. Place loaves, well apart, on a cookie sheet sprinkled with cornmeal. Cover with a damp cloth. Let rise until doubled in bulk—about 1 hour. Brush each loaf with a little cold water. Bake in a hot oven, 450°, 10 minutes. Reduce heat to moderate, 350°, and continue to bake until loaves sound hollow when tapped with knuckles—20 to 25 minutes longer. Yield—2 loaves.

Needs No Refrigeration

## Your library has the answers

Q. Has South Africa any terrorist movement like the Mau Mau?

A. No. The Mau Mau is a secret and bestial organization confined to Kenya, which is separated from the Union by about 3,000 miles. The few resistance movements which have made a brief appearance in South Africa in the past decade have been organized and largely inspired by Communist groups.

Q. When soup is served in a two-handled cup, is it ever drunk from the cup?

A. Soup is sometimes drunk from a bouillon cup when most of it has been eaten from a spoon first.

Q. How can you tell whether your perennial plant needs dividing?

A. The plant should be divided if: 1. Stocks at the centre of the clump have died out leaving a

ring of growth about a sparse centre. 2. The plant does not bloom as heavily as in the past and has small or malformed flowers. 3. A great many of the lower leaves wither away, and the foliage that remains wilts easily and seems in poor health. Q. Is the celebrating of Mothers' Day a new custom?

### MAPPED MANY MILES

In a period of 20 years the fur trader David Thompson mapped more than a million square miles of the Canadian west and his only tools were a pocket watch, a sextant, a candle and the stars.

The Caribbean sea is the largest of the world's seas next to the Malay sea.

## Tulip festival

Three hundred and twenty-five years ago a new flower just imported from Asia Minor was causing fantastic financial speculation in Europe, and especially in Holland. Hard as it is to believe the new flower was affecting the stock market like a wildly climbing penny uranium stock today.

Before the bubble burst, as much as \$5,200 was paid for a single bulb from which the flower grew.

The flower was the tulip. Today this graceful and popular flower causes no excitement on the stock market but its beauty excites admiration wherever it is grown. And the one place in Canada—indeed in North America—where the beauty of the tulip is seen to best advantage is in Ottawa during the Canadian Tulip Festival. Here, during the last two weeks of May, a million tulips put on a show of breathtaking color.

It is the massing of the flowers which is one of the big reasons for the fame of Ottawa's tulips. Hundreds of thousands of tulips were grown in Ottawa before World War II, but little thought was given to their effect on the public. After the war, the Federal District Commission, The Canadian government organization which is responsible for planting the flowers, sought a completely new method of display and found that by massing the flowers in beds of up to 70,000 in size, they could achieve a tremendous effect without detracting from the beauty of the single flower for those who wished to pause for a few minutes to enjoy nature's handiwork.

Though Ottawa's first tulips were planted around the turn of the century, it was an event that occurred immediately after World War II which spurred the new method of planting the flowers and the consequent fame of the tulips. Returning to her homeland, Queen Juliana (then a Princess) gave tangible evidence of her thanks for Canadian hospitality by pledging an annual gift of 16,000 tulip bulbs to Canada's capital city. The people of Holland added another 100,000 bulbs in appreciation of the part Canadian soldiers played in liberating their homeland from the Germans.

Since the initiation of the Festival in 1953, the number of people visiting the city each May has increased by leaps and bounds. The tulips act as a magnet, drawing thousands of people to see their national capital. Many prominent Canadians, including the Governor-General, have pointed out that more Canadians should know their capital city better—and the Tulip Festival is helping to achieve this objective.

### Japanese supper for Explorers

The Girl Explorers with their leader, Mrs. Herr, entertained their mothers and a few guests to a Japanese supper in the basement of the Jubilee Hall on the evening of April 16th. The girls met all guests at the door with the salutation, Kohn-nee-chee-wa, (Good Day) simultaneously bowing low in Oriental fashion. When all guests were seated there was a short program of readings on, and of Japan. Followed by the Explorers devotional service and the hymn, "This is my Father's World".

The room was nicely decorated with streamers, colored lanterns, Oriental pictures, and large fish native to Japan. The overall picture was a work of art. Everyone sat on a cushion on the floor around the 10 inch high table which was graced with a gloxinia plant in full bloom. A very tasty supper was served, rice, fish and meat being the main course. All was eaten with chopsticks. Non-Orientals eating with chopsticks caused a great deal of merriment.

—The Herald, Herbert, Sask.

### Red Cross deficit

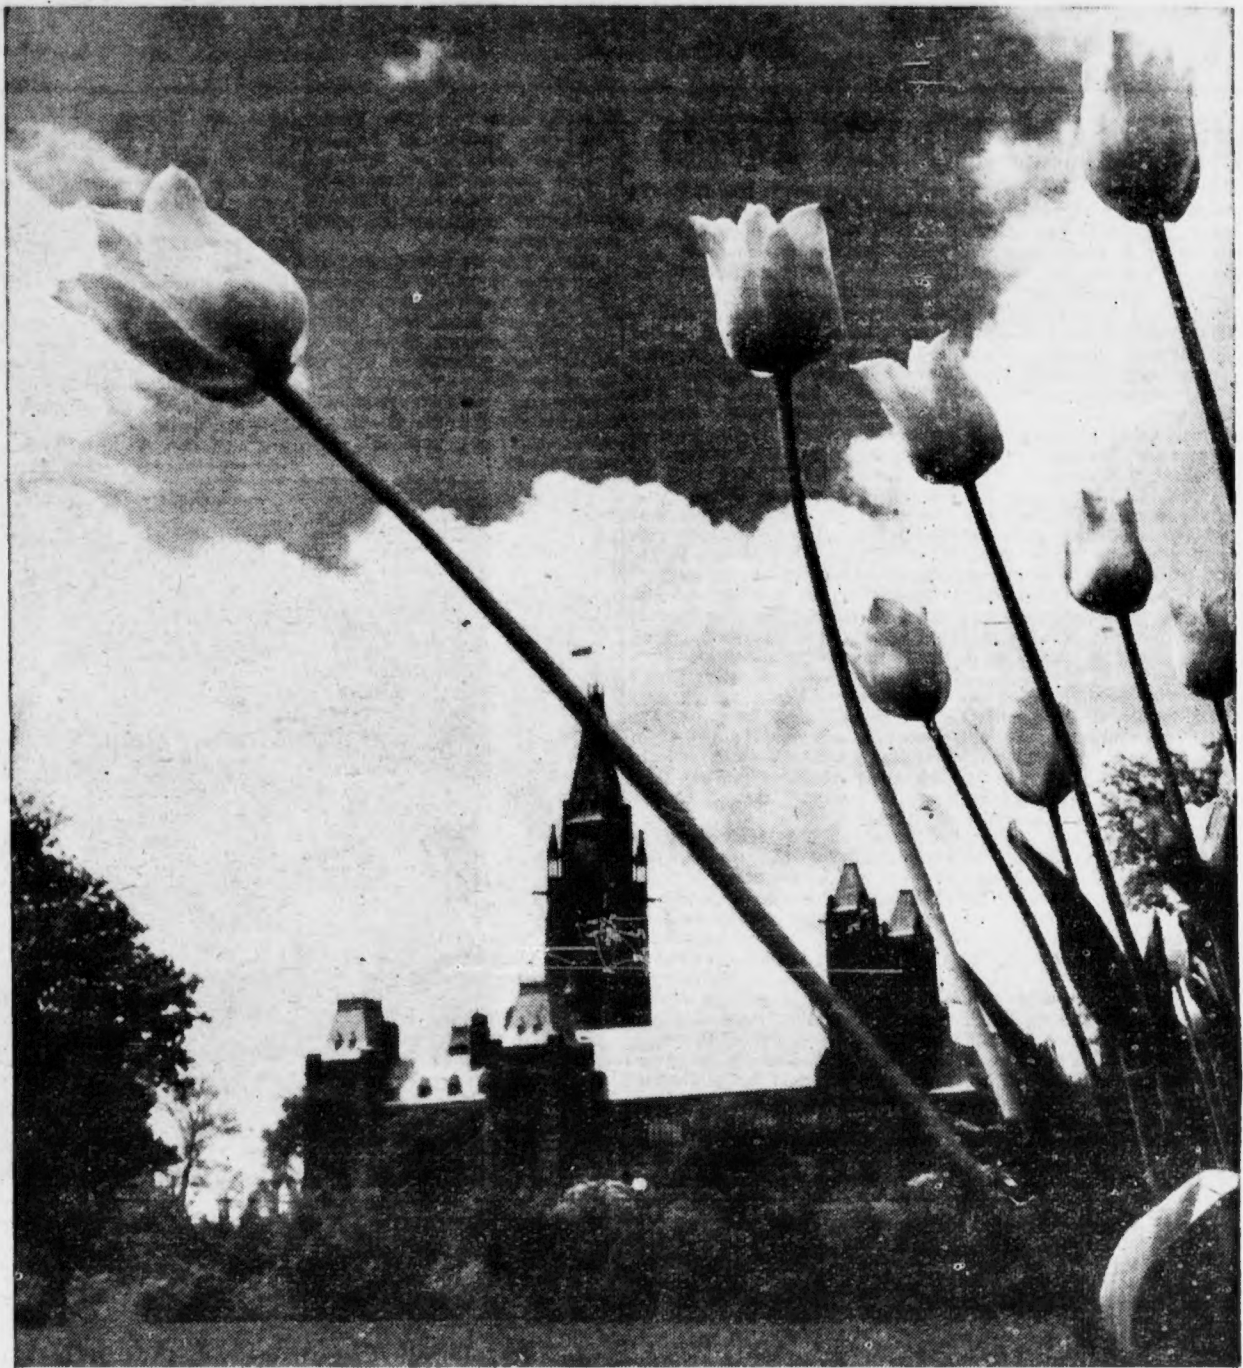

The Canadian Red Cross Society had a \$256,880 deficit in 1957 operations, the annual meeting was told in Toronto.

D. Bruce Shaw, honorary treasurer, reported total expenditures of \$7,293,398. Major outlay was for operation of the free blood transfusion service—\$2,470,088.

A record fund-raising campaign in which \$5,938,722 was collected, failed to meet the target of \$6,281,000. It was \$401,567 higher than in 1956.

## Tulip Magic Draws Thousands to Capital City

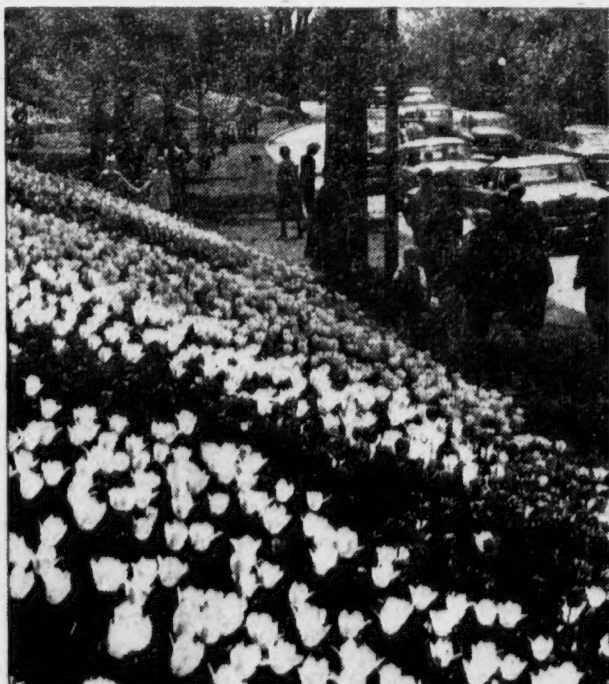

# Ottawa Tulip Festival May 15-30

Ottawa's "Tulip Festival" provides the biggest public display of these colourful blooms this side of Holland. Massed in huge beds along the capital's famous Driveway, on Parliament Hill, the National War Memorial and in other parts of the city, some 200 vivid hues present a spectacular show which each year attracts thousands of

visitors to Canada's capital. Those who come to see the flowers invariably stay to see the city, so that Ottawa is becoming increasingly well-known to Canadians from coast to coast as well as to visitors from the United States and abroad.

National Film Board of Canada Photos by Malik

Many Ottawa tulips are a gift from the people of Holland. Queen Juliana each year sends 16,000 bulbs in remembrance of Canadian hospitality during her World War II residence here. The Dutch people add another 100,000 in appreciation of the part Canadian soldiers played in liberating their homeland.

Camera enthusiasts have a field day among Ottawa's tulips. Pert Jean Mackay above is caught in a winsome pose by an alert photographer. Having captured the beauty of the flowers, many visitors turn their enquiring eyes to other scenic and historic spots Ottawa has to offer.

# Canadian Weekly Features

## WESTWARD HO THE STEEL!

Where in the world can you see in one single day an Indian encampment, a 1905 version of railroad building; a threshing scene, complete with steam engine, and a tea party in a parlor completely furnished as Grandmother's was in 1890? Nowhere on the continent, we suspect, except at "Pion-Era" the truly Saskatchewan show that brings back "Pioneers in Action".

The show, using equipment borrowed from the Western Development Museum in Saskatoon, hung up a record for attendance last year when more than 50,000 people saw the week-long program. This year (June 30-July 6) Pion-Era will go on with more attractions and better facilities than ever before. Preparations have been under way for months, and this year's show is expected to "top them all".

Among the highlights of the show will be the daily threshing demonstration, showing how grain was threshed right from the days of the hand-wielded flail, up to the steamers and the high-capacity threshing rigs that used to employ up to 20 men in the busy harvest season. Another highlight will be a daily demonstration of railroad building. There will be well over 100 horses and oxen taking part in the Pion-Era program, specially trained for the occasion, hitched (as one observer said last year) "to every possible type of vehicle that ever travelled a prairie trail."

Daily parades on the grounds draw big crowds. This year's version will include at least 25 bit steamers; many early versions of gas tractors; a dozen or more ancient automobiles; some of which are so rare that they're almost priceless; and horses and cowboys

and Indians enough to satisfy the most avid Western fan.

Inside the big hangar building which houses the museum displays, there will be something for everyone in the family. The women's program centres around a farm kitchen, living room, parlor and weaving room, all properly furnished with period pieces. The ladies who cook and sew and weave and entertain are dressed in clothing work at the turn of the century. Outside, members of the Doukhobor Society will be baking and serving bread from the big clay ovens. "The best bread I ever tasted" according to most visitors. It's available in big buttered slices or by the loaf.

Horses figure largely in the Pion-Era show. They provide motive power in big walk-around "horse-powers" that drive saw-mills and threshing rigs. There are demonstrations of plowing using horses and oxen. A big Reeves steamer hauls a 14-bottom breaking plow, an outfit exactly like some of the big ones that were in use at the turn of the century.

Theme of the 1958 show is "Westward Ho The Steel!", and the daily demonstration of railroad building will be as nearly as possible an exact replica of how it was done when, after the turn of the century, branch lines began to form a network of railways to serve new Prairie settlers. Noted Saskatoon artist Ernst Lindner has caught the spirit of this new Pion-Era attraction in a large painting which will be on display at the museum during Pion-Era week.

One of the highlights for horse-lovers will be a musical ride by a group of 18 horsemen from Ed-

monton. The "Sheriff's Posse". The group includes 16 Palomino and two black horses. The ride will be directed by an ex-RCMP member who was at one time involved with the "Mounties famous musical ride."

Given fair weather during the week June 30 to July 5, sponsors of Pion-Era expect that, with a host of new attractions, and the program items that have pleased host of new attractions, and the show this year ought to establish new records. There's nothing quite like it on the North American continent, and it's well worth a visit!

## SASK. MEN BUY BULLS

Seven Saskatchewan breeders paid prices ranging from a high of \$1,950 to \$500 at the annual Claude Gallinger sale of registered Killearn Shorthorn bulls. The 27 head sold for an average of \$765.

Matt Nielson and Sons of Craik bought Killearn Welfare 31st, an August, 1956, red bull sired by the imported sire Calrossie Welfare, for \$1,950 and J. Sanders of Wilkie paid \$1,550 for Killearn Eric 3rd, by the same sire. T. C. Bayers and Son of Kelvington paid

\$1,100 for K. Piper 4th.

Other Saskatchewan buyers were W. Muirhead and Sons of Shellbrook, C. Wildman of Glassland, Smeat Brothers of Snowden and G. Hannigan of Shellbrook.

## REASON 10-YEAR CENSUS

The chief reason for taking the 10-year census in Canada is to adjust the membership in the House of Commons in proportion to population changes in the provinces.

The modern process for making rayon was discovered in 1892.

### MULTIPLE USE OF FOREST LANDS

The Multiple Use principle means that all present or possible future uses of forest lands must receive due consideration and that whenever possible, forest lands should be used in several or all of these ways simultaneously.

life and improve farm's appearance. The map illustrates variations in use priorities throughout a sample forest area:

1. Selective cutting for saw timber—controlled so as not to interfere with recreational areas.
2. Scientific research of many types such as tree growth or tree disease studies.

3. Recreational areas — development limited to preserve scenic values.
4. Wildlife habitat — forest "edges" provide best habitat.
5. Pulpwood operations — blocks cut on rotational plan.

6. Grazing by domestic stock — utilizes forage at forest's edge.
7. Watershed control — maintenance of heavy forest cover on slopes to stabilize water supply.
8. Forested strips — left to protect adjacent farm buildings and fields — also provide shelter for wild

WING COMMANDER C. C. W. Marshall, Commanding Officer, 435 (T) Sq., Namao, wishes luck to Squadron Leader J. S. (Dusty) Miller of Bladworth, Sask., as Squadron Leader Miller departs for Resolute Bay where he was in command of Spring Re-supply of the Arctic weather stations.

### Graduates can't write

Construction graduates may be well trained in the techniques of building, but employers find many of them need more schooling in English, reports The Financial Post.

A questionnaire to members of the Canadian Construction Association asking for suggested changes in university courses to improve engineer training brought these comments:

Better training in English.  
Increased emphasis on English grammar and composition.

Most graduates can't be trusted to write letters to clients without further training in English.—The Weekly News, Craik, Sask.

### Sqd. Ldr. J. S. Miller, Bladworth, Sask., directs giant aircraft

A giant airlift of more than one and a quarter million pounds of freight, in the spring re-supply of Canadian government outposts deep in the Arctic, completed on schedule by the RCAF Air Transport Command. The operation was carried out jointly by 435 Transport Squadron, based at Namao airport, near Edmonton and 436 Transport Squadron located at Downsview airport in Toronto.

C119 "Flying Boxcar" aircraft, operating out of Resolute Bay, made 106 sortie-flights into the isolated joint Canada-U.S. weather stations, Dept. of Transport radio

stations and RCMP outposts scattered throughout the Arctic. Resolute Bay is an Air Transport Command base located on Cornwallis Island, 1600 miles due north of Winnipeg.

To take advantage of the continuous daylight in the Arctic at this time of the year, round the clock operations were maintained. Two crews were assigned to each aircraft. Maintenance crews and other squadron ground crew personnel were also flown into the Arctic base.

Despite some delays due to weather and 20 below zero temperatures the operation was completed on schedule. Cargo ranging from shoe laces to building materials including food supplies and mail were either landed or para-dropped to the outposts.

Co-ordinating the operations at Resolute Bay was Squadron Leader J. S. "Dusty" Miller of Bladworth, Sask., operations officer with 435 Squadron.

## A step at a time

If you have ever watched a child who is just learning to walk at the age of seven years following paralysis from polio or from injury, you cannot help but observe the painful difficulty with which this normal function is achieved. Such children are learning again the hard way to do what they once learned so gaily and easily at about the age of one year.

Their progress literally is a step at a time, whether the step be actually putting one foot before the other. Sometimes the achievement is nothing more than picking up a cup of milk and taking a drink from it without spilling—using a hook instead of a hand. Or it may be a mother who for the first time in several years is able to use her steam iron to press a dress for her child, with her formerly paralyzed arm resting in a sling support.

It may be a truck driver who takes his first step downstairs with a new artificial limb replacing that lost in an accident. This may be a first step toward a college education and a new career. It may be a child who has learned as late as age 11 to speak his first intelligible words or one learning for the first time that her crutches are not the only ones used by four-year-olds. In a rehabilitation center, she meets another child just like herself and thus establishes sympathetic human contact.

Yes, it's a step at a time, and we who watch must marvel at the tremendous patience and perseverance of these patients. We must

look with admiration upon the gentle, persistent, insistent and determined leadership of the therapists, teachers and other technicians who practice with them endlessly and never give up, no matter how great the discouragement.

We who have all our faculties intact, who walk without thinking, and talk without effort, we who can do dexterous things with our fingers, and who give no thought to such simple processes as getting dressed, can hardly put ourselves in the places of those to whom every one of these simple and normal movements represents a tremendous effort until it is finally, triumphantly achieved.

All this rehabilitation represents a new approach to disability. No longer do we refer pityingly to "cripples" who are destined to spend their lives in wheelchairs, or to be spoon-fed by their relatives. No longer do we allow our handicapped to become disillusioned, unhappy, disgruntled, and useless burdens upon their relatives, upon society, and worst of all, upon themselves.

Now, we attack these problems, and we have developed many ingenious ways of meeting them. We have artificial limbs, and we have cleverly devised gadgets by which normal function can be replaced with the best available substitute. Best of all, we instill into these handicapped a new spirit of determination, and the satisfaction of knowing that they may still be of use in the world despite their handicaps.

Such programs, of course, do not arise spontaneously. They require, first of all, vision, planning and leadership, which has come from the medical and allied professions. Such programs require money, and this has come from the Easter Seals. But even leadership and money is not enough.

Understanding is required on the part of people who know of persons needing rehabilitation service and not getting it. Despite all the modern means of publicity, it is still not uncommon for individuals to be completely unaware of opportunities for better health for themselves or their families. Anyone who knows of a crippled child or adult needing rehabilitation should bring that person at once to the attention of local public health and social service authorities who will know where to find the necessary facilities to restore him to a worthwhile place in life.

### A honey of a story!

Several hundred thousand bees arrived in Winnipeg over the past few days from the warm climes of Louisiana in the Southern United States.

They weren't huge, out-of-season swarms, however. The bees arrived at the C.N.E. station nicely packed in crates enroute to honey producers in Manitoba and Saskatchewan.

They later left by Canadian National Express for Neepawa, Sandy Lake, Pine River, Tisdale, Endeavour, Canora, Lestock and other points.

### WAGE INCREASED

Since 1951 the average wage in Canadian manufacturing has increased from \$1.25 to \$1.66 an hour.

## Editorials

from  
Canadian Weekly Newspapers

(These are not necessarily the views of the editor of this paper)

### Time for control

(The Langenburg Journal, Moosomin, Sask.)

The spring rash of grass fires has taken a heavy toll in this area this year, not to mention hours lost by volunteer firemen, piles of soiled and blackened clothes to be cleaned, and many people thoroughly frightened by the jumping flames at their door.

Some people have an itch to light dry grass, without thought of the consequences, or the trouble they cause the fire brigade. The land will be just as green four weeks later, fire or no fire, but some people cannot leave the grass to disappear in Nature's way.

Scanning through the weekly papers that come to our desk, we note that paper after paper reports firemen scurrying to grass fires, some of which took a heavy toll in sports grounds buildings, barns, sheds, and even homes. The biggest damage was done by fires deliberately set, and planned, by volunteers who wanted to clean off a sports ground, or a vacant lot, or a playground. They meant well, but the damage is the same in any case.

Perhaps a permit system is the answer. Any group planning to light a fire must first register that intention. Then if a fire call is necessary, a set fee must be paid to the fire brigade, and all damage paid direct to the owner, by the group or individual lighting the fire. If children light a fire, the parents are certainly responsible. All children should be taught the danger of grass fires.

But in our experiences very few fires are set by children. Most of them are set, and deliberately, too, by responsible adults, most of whom do not even remain to see what happens.

★ ★ ★

### The pattern of simple living

(The Bulletin, Brooks, Alta.)

A proverb of ancient Greece asserted that 'the gods sell all things at a fair price.' What was meant was that Nature is bounteous.

Many things that are beautiful are not put up for sale at all but offered as a gift.

The birds sing for us without charge and without restrictions from the music makers' union. Nature decks the wilderness with flowers and grass for man's enjoyment and nurture.

We are allowed to watch the sun rise and set, the clouds sailing across the blue Alberta sky, the prairies and the forests, the glorious sea and the rugged mountains.

There is no entrance fee to the starlit Hall of the Night.

Simple food, to the hungry, tastes better than food served in the most expensive restaurants.

Contentment and peace of mind ought to be more prevalent in the quiet countryside than in the overcrowded cities.

The most expensive things are those that can be well done without.

★ ★ ★

### We most compromise

(The Times, Morden, Man.)

Men are easily deceived by a counterfeit sort of liberty, and mistake something for their private inheritance which is only their right as working members of society.

Our civilization is so complex that it can exist only if there is a continual compromise between the liberty of the individual and the liberty of society.

We have set up a certain balance in democratic countries. Our political liberty is of the kind that curtails certain personal freedoms with our consent so that the widest freedom available to us as members of society may be protected.

We are truly free if we live in an independent state in which we have the right and means to choose, criticize and change our government; in a society where the laws are equal for all people, and the restrictions on our personal freedom are at a minimum; in an economic system which gives us the opportunity to secure a livelihood according to our ability, desire and energy; and an environment where we are free to display our merit and to express ourselves.

Freedom is more than a poetic word; it is vital to our life as human beings.

★ ★ ★

### Worthy tribute

(The Enterprise, Yorkton, Sask.)

Through the medium of the Yorkton Chamber of Commerce, Yorkton is to honor the Yorkton Miller Hockey Club and Mrs. Donna Matthews and her curling rink on Saturday evening. The event is to take the form of a buffet supper when His Worship Mayor W. E. Fichtner will present suitable souvenirs. Jack Parr, the chamber president, will preside.

The Yorkton Millers are real amateurs that made their way to the semi-final series in the Western Canada Intermediate A hockey playdowns on their own steam and were only eliminated by the narrowest of margins. A truly remarkable feat and a great boost for amateur hockey.

Mrs. Donna Heard Matthews and her rink went to the Western Canada ladies' curling finals and gave a great account of themselves all the way.

### Week's sew-thrifty PRINTED PATTERN

4732  
SIZES  
2-6

by Anne Adams

Pure joy to sew—no waist or side seams! Check that diagram—even a beginner can whip up this adorable Printed Pattern in less than a day. Choose no-iron cottons with contrast-color ribbon to cinch the waist.

Printed Pattern 4732: Children's Sizes 2, 4, 6. Size 6 takes 1½ yards 35-inch fabric.

Printed directions on each pattern part. Easier, accurate.

Send forty cents (40c) in coins (stamps cannot be accepted) for this pattern. Please print plainly Size, Name, Address, Style No. to Anne Adams Pattern Dept., Department P.P.L., 60 Front Street, W., Toronto.

## SMILING HEART

What are we searching for  
As we reach up to space?  
Is it knowledge?  
Is it peace?  
Is it grace?  
Planes may soar,  
Satellites race—  
But man's thoughts must rise  
To blend with the glorious colors  
Of God's good sunset and sunrise  
To attain peace.  
Man's smiling heart may  
Reach heaven  
While he stands  
With two feet on the ground.

Kathleen Patton, Regina.

## Daytime delight PRINTED PATTERN

4656  
by Anne Adams

New dress on your mind? Make it this Printed Pattern—a sew-easy princess with a cool neckline, a suggestion of sleeves, a breezy skirt. Add "jeweled" touch with pretty embroidery.

Printed Pattern 4656: Misses' Sizes 12, 14, 16, 18, 20. Size 16 takes 5½ yards 35-inch fabric. Embroidery transfer included. Printed directions on each pattern part. Easier, accurate.

Send forty cents (40c) in coins (stamps cannot be accepted) for this pattern. Please print plainly Size, Name, Address, Style No. to: Send order to:

(The Canadian Champion, Milton, Ont., April 24, 1958)

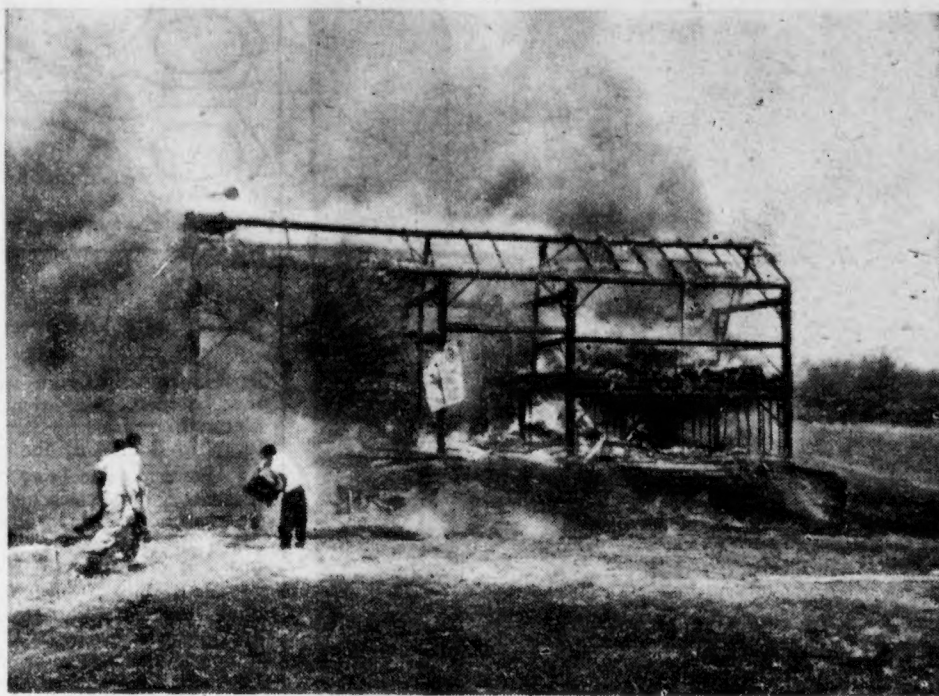

Photo by Dick Holborn.  
**COMPLETE LOSS** of a barn owned by Ed. West near Rattlesnake Point, Appleby Line, was estimated by firemen at \$9,000. The fire started at 12:05 on Thursday, when Mr. West had gone out in the lane to burn some rubbish. The grass caught fire and flames roared through the barn, burning nearly 20 acres on the other side before they could be extinguished. Both fire trucks were called to the blazing building.

## QUICK CANADIAN QUIZ

- When were the Parliament Buildings built in Ottawa?
- What proportion of working Canadians are employed in manufacturing?
- Apple growing in Nova Scotia's Annapolis Valley dates back to when?
- In 1945 Canadian employers contributed \$156 million to pensions and welfare, workmen's compensation and unemployment insurance. What was the 1957 total?
- Wheat normally accounts for what proportion of Canada's railway freight traffic?

**ANSWERS:** 5. Wheat is one-third of all rail freight. 3. To about 1650. 1. Corner stone was laid in 1860; legislature first assembled there in 1866. 4. \$533 million. 2. About one in four works in manufacturing.

(Material prepared by the editors of Quick Canadian Facts, the pocket annual of facts about Canada.)

## INCREASE 3.6 PERCENT

In dollar value Canada's gross national product rose by 3.6 per cent in 1957, but the increase was due to higher prices; in terms of physical volume of output the GNP did not increase over 1956.

## COMPLAINTS

Thank your lucky stars for people who complain. Their complaints may seem trivial, their attitude exasperating, and all that, yet there is every reason why you should feel grateful to them. The only way you will ever know the weaknesses of your organization is to have them revealed to you by the people whose patronage you seek to hold. One of the costly tragedies of business is the customer whose dissatisfaction remains unexpressed—the person who simply walks out and does not come back. On the other hand, the person who "kicks" about your service and products is doing you a favor. As commonplace and trite as this reasoning may seem, it is surprising how many men look upon complaints simply as a source of annoyance. The right attitude toward complaints—tolerance, sincerity and energy in running them down to their source, and a disposition to change the conditions that cause complaints will do more to help a business function properly than anything else. Fortunate indeed is the man who succeeds in cultivating in the mind of everyone in his organization the right mental attitude toward complaints.—The Advance, Gull Lake, Sask.

There are about 20,000 species of birds in the world.

## Cosmetic danger exceeds fallout

Chemicals in food and cosmetics may be more dangerous to the human race's reproduction than radioactive fallout, says scientist Dr. Charlotte Auerbach of Edinburgh University.

Dr. Auerbach, gave a lecture at the University of British Columbia during a Canadian tour, is specializing in the study of chemical mutagens—agents which produce changes in hereditary makeup. X-ray and radioactive fallout are known as physical mutagens.

"We should consider that many of the chemical compounds which we use in nutrition, cosmetics, industry and therapy may well be mutagenic, and that the amount of mutations produced by them outnumber those produced by radiation," she said.

## Canary Islands

The Canary Islands, in the Atlantic Ocean about 60 miles off the northwestern coast of Africa, were known to the Romans. They referred to them as canaria, from the Latin word for dog, "canis", because they were overrun with wild dogs. They were also called the "Fortunate Islands". Later they were forgotten and were rediscovered by Europeans near the end of the 13th century.

## Annual cleanup week

As mentioned in our last issue this week is (or has been) clean up week in Rosthern (April 28-May 3). Owing to the showfall earlier this week and the extremely cold weather accompanying it, many householders probably did not get around to cleaning up their yards. This may serve as a reminder to get it done as soon as possible.

According to a health survey taken last October by officials of the Prince Albert Health Region, numerous items were graded B, B- or C, resulting in an adverse effect on the local overall health picture. Grade C, or the lowest grade, was garbage collection and water, with outdoor toilets running a poor B-.

In the report on the survey to the town, health region officials emphasized the importance of having fly-proof doors on all outdoor toilets, and urged that all householders check theirs before the fly season begins.

Handling of garbage was not on a satisfactory basis and the council has since taken steps to holders are reminded to have their garbage disposal units erected according to bylaw regulations by June. remedy the troubles here. House- In connection with the two

above mentioned items we are running a picture to illustrate the conditions of some of our back alleys and what should be done to correct them. The top photo shows faulty structure conditions resulting in ideal breeding-place for flies. Irregular garbage collection and primitive receptacles often result in littered alleys as shown in the picture. The lower photo shows what an alley could and should look like—flyproof doors on toilets and a raised stand for the garbage receptacle.

In the opinion of the health region officials, only a few of the wells in town are free of nitrates in excessive amounts, and a high percentage of local wells were described as contaminated.—Sask. Valley News, Rosthern, Sask., April 30, 1958.

## 26 BY LATEST COUNT

By most recent count there are only 26 whooping cranes surviving in their wild state. Their summer nesting ground is Wood Buffalo National Park, which straddles the Northwest Territories-Alberta border.

Narrowest point in the Americas is 28 miles at the Isthmus of Panama.

## Visit the Tree Planting Car

Meetings are held in the Car at each point on the itinerary, at eight o'clock in the evening. When schools are open, arrangements are made with the school authorities to have the Pupils visit the car during school hours. Sound films show the results obtained by farming people through planting trees, and give practical instructions in tree planting and home beautification. An illustrated talk covers planting methods, which trees to plant, the laying out of a shelter belt, and planning the home ground, with information on the care of trees and shrubs. A question period follows each evening meeting.

## Child's favorite

by Alice Brooks

A child's favorite prayer—beautifully illustrated by embroidered pictures! Enjoy your leisure hours with this easy pleasure-giving needlecraft.

Pattern 7115: Transfer of two pictures 10x14 inches; color charts; directions for framing. Send thirty-five cents (coins) for this pattern (stamps cannot be accepted) to:

Household Arts Department,  
Department P.P.L.,  
60 Front Street, W., Toronto.

(The Mercury, Estevan, Sask., April 24, 1938)

**STREET CLEANER**—Estevan's new street cleaner, an up-to-the-minute piece of equipment that is designed to practically "launder" city streets, was turned over to City Engineer Wm. Martin. Tony Marcia, left, of Frost Equipment, Regina, representatives of the Elgin Street Sweeper Corporation, handed over the keys to the machine while Dave Harris, standing beside Marcia, and Alderman Paul Grunden witnessed the proceedings. In the cab of the machine is Lawrence Klyne, operator. The sweeper makes the rounds of city streets in the early mornings so as to avoid traffic.

## Consumer decides

(The Pembina Triangle, Winkler, Man.)

The consumer holds the key as to when recession ends. It's his spending which helps clear off clogged inventories and spark new orders from the factories.

If consumers keep up the buoyant buying pace set in January, they would be a potent force slowing the production downslide in many industries. Retail sales in the month ran almost six percent higher than in January last year with sensitive-to-trends department stores reporting their sales up nine percent.

These are sturdy gains, but take the totals apart and you can see the consumer isn't throwing around his retail dollar any more. It's a "buyers market".

Higher prices account for about half the dollar increase; the consumer's dollar is moving a smaller volume of goods than a year ago. Also, figure in the larger population and it's apparent that per capita buying although sales are brisk here is still just holding its own. Continuous effort from merchants to keep promoting for higher sales can help the most to keep at least the area economy buoyant.

Salt was once regarded by the ancients as a symbol of purity.

## Wool fashions prove ideal "Round the World" travelers

As Canadians increase their interest in travel, the resurgence of wool for sportswear, daytime and evening fashions makes news in style centers throughout the nation. This is not a coincidence. Travel interest has definitely increased the consumer's demand for clothes that are right for various climates, right for minimum luggage requirements, and right for fashion-conscious wear around the clock.

Wool ensembles this season are not fashions that lose their fashion-appeal when one or more parts are banished for the occasion. Designers have travel demands in mind, apparently, with almost every such fashion they create.

"Minimum luggage" is a point of serious consideration to every wise traveler. Variety of climates encountered on a trip, for instance, from Regina to Europe with a stopover in New York, demands that the traveler think of fashions that are right for a sunny day or a chilly one—right for city streets or a small town. The answer is proving to be solidly and surely; wool fashions.

Wool is a fabric that gives the traveller a costume that can real-

ly travel. She knows that it will resist wrinkles—that a little crinkling in the suitcase can be overcome with a few minutes of steam in the hotel bathroom. A fashion hung on the shower rod for less than a half hour, while she is dressing, means a fashion that is sleek and bandbox fresh as it was when packed before her trip. She is definitely in favor of the practical side of this. Designers are also in favor of the new light weights, the beauty of the year's new wool colors, and the fabulous variety of wool fabrics available.

Let a woman lose a part of her travel wardrobe and her vacation is ruined. Strolling down the Champs Elysees in a smartly cut wool suit, a woman can truly enjoy the sights of Paris. Force her to wear her three-seasons-old raincoat, or something she has hurriedly selected while waiting for her carefully planned luggage to catch up with her, and the sights of Paris lose much of their lustre. This idea was set forth by a man who knows his travelers. The right clothes can make or break a woman's vacation, or a man's success in business travel.

Fashions that are ideal for home, are also ideal for travel. No woman has to buy a wool wardrobe "just for travel". The fashions she purchases are perfect for her home town wear, or big city wear. Today you simply cannot be wrongly dressed in a fashionable lightweight wool suit no matter where you step and this is true almost 12 months of the year. As wool fabrics become more light in weight, their time-honored versatility offers new and even more astounding versatility in styles for wear around the clock.

The "travel assurance" that belongs uniquely to wool is one of the prime factors that is sending the fabric to the top of the fashion bracket in our age of travel. It is true that every person wants to be economical but it is impossible to find a person who wishes to look economical. This is particularly true of a traveler, whose enjoyment can only be at its height when she feels she is looking neatly and becomingly dressed. A wool fashion can be obtained for any price from high to low. The fabric itself however, and the very fact that it is of all wool, is always a "prestige fabric".

### ARMED FORCES STRENGTH

Present strength of the Canadian armed forces is about 120,000, 50,000 each in the army and air force and 20,000 in the navy.

### SUPPORT LOCAL MERCHANTS

#### Chests

A group of chests gives a good effect. The two sizes shown have block-front drawers that are easy

to make with hand tools from stock sizes of lumber. Pattern 286 for the 32-inch and 282 for the 18-inch-wide chest are 40c each. The Bedroom-Furniture Packet of 5 patterns including these chests is \$1.75.

Home Workshop Patterns, Department P.P.L., 4433 West 5th Avenue, Vancouver, B.C.

### More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. FASTEETH, an improved powder, sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug counter.

## You'll find my CHERRY DUMPLINGS easy to make!

Turn out into broad saucepan or electric frypan  
1 can (approx. 15 ounces) cherries and syrup  
Add and stir until sugar is dissolved  
1/2 cup granulated sugar  
1/2 cup water  
Cover and bring just to boiling point.

Meantime, sift together into a bowl  
1 1/4 cups once-sifted pastry flour  
or 1 1/4 cups once-sifted all-purpose flour  
2 1/2 teaspoons Magic Baking Powder  
1/2 teaspoon salt  
2 tablespoons granulated sugar  
Cut in finely  
2 tablespoons chilled shortening  
Mix in  
1/2 teaspoon grated orange rind

Make a well in dry ingredients and add  
1/2 cup milk  
and mix lightly with a fork, adding more milk, if necessary, to make a drop dough. Drop by large spoonfuls over cherries. Cover and simmer 15 minutes, without lifting lid. Serve immediately. Yield: 4 or 5 servings.

Guard against failures... use dependable MAGIC Baking Powder. MAGIC protects all your ingredients, gives you light, tender baked goods. Buy MAGIC today!

**GAMBLE COMMUNITY NEWS**  
Continued from front page

Fred McCracken, Mrs. Matt Kary and Mrs. R. Garrett attended the W.A. Rally held at Beiseker on Thursday.

Miss Patsy Clayton visited with her aunt and uncle Mr. and Mrs. Fred McCracken over the weekend.

Several of our young folks had calves in the show and sale at Drumheller on May 31 and report a very good sale. Congratulations to Caroline Sigmund who had the Reserve Champion in the Avondale Calf Club.

Mr. and Mrs. R. Garrett attended the banquet held for the defeated candidates in the March 31st election, in Calgary's Jubilee Auditorium on May 30th.

Word has been received that Mr. Harry Braden, one time resident of this district, passed away suddenly at Rocky Mountain House.

Mr. and Mrs. Gordon McCracken and Mr. and Mrs. Art Sigmund left Wednesday to attend the Lions Convention in Great Falls, Montana.

Mr. and Mrs. Vince Marusz and baby visited with their parents in the district over the weekend.

Mr. Don Langley was a Banff visitor on Sunday.

Mr. Clyde Anderson is a patient in a Calgary hospital. Hope you will soon be home again, Clyde.

Dave Anderson and Ward Madson tried the fishing at Pine Lake on Monday but report that the fish were not very hungry.

Mr. and Mrs. Steve Homeniuk and Mavis were weekend visitors at the Metzger home.

We hear that John Garrett is having his house redecorated. Does that have any significance? We have waited a long time for that charivari, John.

A number of Gamble folk attended the Calf Sale in Drumheller on Saturday.

## AVONDALE BEEF CLUB

The Drumheller 4-H Show and Calf Sale was held on May 31, 1958 with 8 clubs attending.

The Avondale Club was judged at 9:00 o'clock Saturday morning. The placings were as follows:

Name	Breed of Calf
<b>SPECIAL—</b>	
Morley Buyer	Hereford
Caroline Sigmund	Hereford
Alex Cormode	Ab'deen Angus
<b>CHOICE—</b>	

Kenny Ward	Shorthorn
Geraldine Mortimer	Shorthorn
Morris Jackson	Addn. Angus
Tom McIntosh	Ab'deen Angus
Larry Luft	Shorthorn
<b>GOOD—</b>	

Norman Luft	Shorthorn
Larry Mortimer	Shorthorn
Grant McIntosh	Hereford
Mel McIntosh	Shorthorn
Robert Davis	Aberdeen Angus
Larry Hecktor	Shorthorn
Bob Gordon	Shorthorn
<b>QUALIFIED—</b>	

Annie Dixon	Hereford
Bruce Permann	Shorthorn
Alex Cormode	won the best Aberdeen Angus of the show.
Kenny Ward	won the showmanship of the club.

The prices of the sale in the afternoon ranged from 22 to 28c per lb. for the Avondale Club.

The Avondale Club would like to take this opportunity to thank Mr. Buyer for leading our club this year and hope he continues to lead it next year.

—W. M. Jackson.

## ACME

The Annual Acme Elks Kiddies Day will be held June 13. The day will begin with the Parade led by the Acme Elks Patrol at 11 a.m. After the flag raising ceremony at noon the day will feature ball games, races and free treats for the kiddies. Drumheller Meteors orchestra will furnish music for the big dance at night.

Acme maintained their unbeaten record in the Kneehill Baseball League when they defeated Ghost Pine 9-5 at Ghost Pine Wednesday evening. Batteries were: Ghost Pine, Huxley, Kubenic to N. King; Acme, Maynard Spooner to Bob Hannah.

Acme continued their winning ways Sunday June 8th in the Kneehill Baseball League when they won over Huxley 13-5 and over Trochu 11-3 on the strength of good pitching and sharp fielding, plus timely hitting, including a three-run homer by Chester Mayhew in the first game. Batteries were:

First game: Acme, Maynard Spooner to Bob Hannah; Huxley, Len Poffenroth, Dale McCook and Elmer Wik did the pitching.

Second Game: Acme, Chester Mayhew to Bob Hannah; Trochu, George Skelton, Don Duncan to Hank Hanna.

Mr. and Mrs. George Northcott, who are leaving shortly to make their home in Calgary were honored last Saturday evening at a farewell party held in the Grainger Hall. That these respected old timers

were held in high esteem by all the community was evident in the number of people who were present — well over 100 — to bid them farewell.

A short program of musical numbers, including a piano solo by Patsy Kanderka, accordion solo by Larry Gieck, piano solo by Joyce Gordon, accordion solo by Carol Ann Poffenroth and guitar and banjo number by John Kanderka and Don Kanderka was much enjoyed. "Beat the Winners" under the direction of Mrs. Violet Lavoie and Mrs. Pearl MacDonald caused much amusement, Mrs. MacDonald's side winning. Mrs. Alan Berreth then favored us with a beautiful solo accompanied by Mrs. Greenway at the piano. Mrs. Berreth then led a lively sing-song.

Mr. C. W. Sherring on behalf of the friends and neighbors presented Mr. and Mrs. Northcott with two lamps and wished them much happiness in their new home. Both Mr. and Mrs. Northcott graciously thanked their friends for the gifts and stated, "There's no friends like the old friends."

A delicious lunch was then served by the hostesses Mrs. Fred Moore, Mrs. W. D. MacDonald, Mrs. Leo Lavoie and Mrs. Stan Kane. Singing "Auld Lang Syne" and "They Are Jolly Good Fellows" brought the delightful evening to a close.

Mr. Douglas Jermyn, Barrister, will be guest speaker at the Acme Chamber of Commerce and Agriculture meeting Tuesday evening June 10 in the Acme Memorial Hall Lodge Room. Mr. Jermyn will speak on wills and will answer any questions on this subject. This should be of interest to both ladies and gentlemen. Coffee and doughnuts will be served after the meeting. Support your community by attending these meetings.

## THOSE DISCARDED NYLONS

In Japan there is a Gov't agency called "The Women's Welfare Service of Japan." This organization helps find employment for many women, particularly widows who must support themselves and their children. One method is by making use of damaged nylon stockings. These discarded damaged nylons are used to make full length and knee length stockings from slightly damaged ones mended to look like new socks in various designs for men, women and children made by unravelling the damaged hose and reweaving them into pretty corsages, flowers, butterflies, small stuffed toy animals—dogs, cats, monkeys; gloves, slippers, bags made from the unravelled thread nylon yarn. Unusable parts of stockings are made into nylon yarn from which cushions, mattresses and shoulder pads are made. There are 21 workshops where some 426 widows are employed in this work and 1695 women work in their own home. The workers average monthly income is \$15 but a few earn as much as \$45 a month.

The W.M.S. are sponsoring this project and those interes-

ted, wash and pack your nylons putting this address on them "Nylons for Widows of Japan" and leave same at vestibule on right hand side of church or at Collinge Store where boxes will be placed for same.

## WOMEN'S ASSOC. RALLY

The W.A. Rally was held at Beiseker May 29, with delegates from Carbon, Acme, Beiseker, Drumheller, Delia, Rockyford, Rosebud and Morrin attending.

Mrs. Tomte, Vice President opened the meeting by welcoming everyone to the Rally.

Reports from the delegates showed all groups had been very busy.

Mrs. Margaret Enger, President of Alberta Conference was guest speaker. Her topic was how we can best use our talents in our church at home and abroad.

A social cup of tea was enjoyed by all.

On May 12 I took my place in the House of Commons for the first time with a hundred new members. It was on that day in question that I with 265 other members of Parliament walked to the Senate Chamber to hear the Speech From the Throne being read by His Excellency, the Governor General of Canada. The speech sets out the Government's program for the coming session.

The following are highlights:

1. That a commonwealth trade and economic conference will be held in September of this year in Montreal.
2. That the Government would assist in bringing about a settlement of the C.P.R. strike. This has already been accomplished.
3. A promise of the acceleration of the building of useful public works to relieve the unemployment problem now confronting the economy of Canada. This has a two fold purpose to give jobs to men and at the same time build and construct buildings and develop our natural resources.
4. To extend for a further six weeks the seasonal benefits under The Unemployment Assistance Act. This has already

been accomplished and will help those who are yet seeking jobs.

5. A vigorous program of house building was promised for the purpose of improving the standard of living of the average Canadian and to create more jobs. The sum under the National Housing Act Fund was increased from \$400,000,000.00 to \$750 million although the opposition did delay the passing of the Act by numerous speeches.

6. To build a system of airports and airways together with increased work on harbours and rivers and public buildings.

7. The promise of legislation in reference of building of a railway to Great Slave Lake and roads in the Yukon and Northwest Territories.

8. The making of arrangements for construction of the South Saskatchewan Dam to commence this year.

9. In reference to Agriculture this year, a promise of a vigorous sales campaign to unload our surpluses with special attention to increase exports of wheat and cattle.

10. A promise of amendments of the Cash Advance Bill together with an undertaking of price support by implementation of the Farm Support Legislation when necessary.

11. Assistance to small businesses by the establishment of a small business section to provide liaison between the Govt. and small businesses. This will be an absolutely new project.

Most of the time to date has been spent on the debate of The Speech From the Throne. However, the Unemployment Assistance Act has been amended and the fund for house building has been made ready for the immediate speedup of this construction. In future letters I will outline what legislation has been passed.

I will be speaking over CFAC on the program "Report From Parliament Hill" Sunday June 8 for 10 minutes between 5:15 and 5:25 p.m.

Eldon Woolliams, M.P.

W. D. MacDonald of Grainier, President of the Alberta Associated Chambers of Commerce and Agriculture announced that the 20th Annual Meeting of the Chambers June 10th and 11th is shaping up to be one of the best on record
